## Liberty Baptist Fellowship - Going Beyond the Red Tape

In the summer of 2022, LBF Chaplain, Captain Colby Felton began his ministry at Brooke Army Medical Center (BAMC) as the first Air Force Active Duty Chaplain for the 959th Medical Group, including 1,400 Air Force members and their dependents. Located in San Antonio TX, BAMC is the largest DoD inpatient facility and the only Level 1 Trauma Center and Burn Center.

As a staff chaplain and lead chaplain for the 59th Medical Wing True North Program, Chaplain Felton has gone above and beyond in bearing both the message and presence of Christ in his ministry by engaging and assisting whenever possible. He not only provided spiritual support and guidance to BAMC staff, but he also volunteered in roles that allowed him to have insight and understanding of the activities and roles of those he served, "going beyond the red tape", as was described by one of the surgical technicians he worked alongside. The red tape on the floor in the surgical center was the boundary for those allowed back in the surgery room, and for Chaplain Felton, this meant access to more people and more critical situations. Furthermore, he was a key contributor on the Wellness Team, helping to establish the Selah Room. "Selah is a call for a break and a push to breathe," said Chaplain Felton. "The Selah Room gives staff the opportunity to decrease stress, replenish energy, fuel productivity, increase focus and retention, enhance creativity and improve decision making." Chaplain Felton is now assigned to Joint Base Charleston in South Carolina but he has left a great impression on those he worked alongside at BAMC. He has been credited with helping to make BAMC "feel like home" and helping to build both morale and resiliency within the hospital units. Chaplain Felton has been endorsed with LBF since 2015 and he continues to serve both God and Country with honor and integrity!
